Administrative history / Biographical sketch

Note

Not available.

Scope and content

The fonds of the Instructional Media Centre consists of records created and received in the course of carrying out one of its functions. The activity documented is taking photographs requested by other university departments. The types of documents include

photographic contact sheets, prints, negatives and slides. Appendix A1, "How to Find Archival Photographs" is available in hard copy form .

Notes

Title notes

- Source of title proper: Title of the fonds is based on the name of the body.

Immediate source of acquisition

The records were transferred in a number of accessions from the Centre beginning in the 1980s.

Arrangement

The records were arranged by the Archivist according to the creator's original record numbering scheme.

Restrictions on access

Copyright restrictions apply.

Some files may contain personal or confidential information. Access to these files may be restricted as required by law. Files marked 'pending review' must be reviewed by an archivist prior to release, and as a result of the review access restrictions may apply. Please see the file lists and consult the archivist for more details.

Finding aids

Photographic indices and file lists are available. Most but not all photographic materials are indexed. Originally, no systematic indexing was done by the creator, therefore, no photographic materials were indexed by IMC before 1984. The photographic index that exists for pre-1987 materials was prepared by the Archives Department and is available on the Finding Aid shelves. Since 1984 IMC has created annual indices in electronic form. This index is available on the Reference Room computer. None of the indices were prepared using subject or name authorities to ensure the use of consistent terms. See appendix 1 for a guide to finding archival photographs (hard copy version of the finding aid only, available in the Archives Reading Room).

Accruals

Further accruals are expected. Consult with the archivist about unprocessed accruals.

Series descriptions

Series F-18-1: Photographic material

Date: 1963 - 1993 (date of creation)

Scope and content:

Series consists of photographic materials depicting people, programs and physical environment at Simon Fraser University. Subjects include SFU's architectural competition and design, interior and exterior architecture, opening ceremonies, presidential installations, students, faculty, and staff. In addition to contact sheets the series includes previously unnumbered photographic negatives and prints which cover a wide variety of subjects; slides of the Art, Science and Technology Fair, Discovery Fair and SFU Convocation Ceremonies; and prints of SFU's architecture.

Physical description: 3.45 m of textual records
3.2 m. of photographic material

Arrangement:

Records are arranged according to the creator's original record numbering scheme. Contact sheets are arranged in numeric sequence. The first two digits of this number indicate the year the photograph was created and the last three digits is the number of the contact sheet on which the photograph is printed. Photographs whose source is unidentified but is probably the Instructional Media Centre are filed first in each year. All 4"x5" colour contact prints are filed at the beginning of each year and all 4" x5" black and white contact prints are filed at the end of each year.

Restrictions on access:

Copyright restrictions apply. Some access restrictions apply in accordance with Freedom of Information and Protection of Privacy legislation. Consult the archivist.
