Summary information

Repository: Simon Fraser University Archives and Records Management
Department

Title: Department of Biological Sciences fonds

ID: F-5

Date: 1962 - 1989 (date of creation)

Physical description: 5.25 m of textual records

**Dates of creation,
revision and deletion:**

Administrative history / Biographical sketch

Note

The Department of Biological Sciences was established in 1965 as a department in the Faculty of Science. From its inception, the department offered a broad curriculum leading to B.Sc., M.Sc., and Ph.D. degrees. The overall mission of the Department was to provide instruction in Biology and, by research, to increase the knowledge base in Biological Sciences. This mission encapsulated four broad areas of responsibility: to provide broad-based undergraduate instruction in modern biology; to provide graduate training leading to Master of Pest Management (M.P.M.), M.Sc. and Ph.D. degrees; to provide a work environment and facilities for faculty, researchers, and graduate students; and to provide for expansion and development of research and graduate training and to foster the development of intra- and interdepartmental Centres and Institutes designed to promote collaborative research and training. With the opening of the Pestology Centre in 1967, it began its specialization in pest management and the role of nurturing an international centre for excellence in research and teaching in the field.

The Department was administered by the Chair and two standing committees: Departmental Undergraduate Curriculum Committee (DUCC) and the Departmental Graduate Studies Committee (DGSC). The Chair was responsible for the overall administration of the Department, including the operational budget, faculty tenure and salary recommendations, teaching assignments and representation of the Department. The DUCC was responsible for the development, implementation and monitoring of the undergraduate program. The DGSC was responsible for graduate admission recommendations, monitoring the progress of graduate students, and developing criteria and methodology for student evaluation for purposes of scholarships. By 1990, two further committees had been added: the Departmental Tenure Committee and the Committee on Space. The Departmental Assistant and Lab Coordinator were responsible for much of day-to-day administration of the Department. The Departmental Assistant reported to the Chair, who in turn reported to the Dean of Science. The Pestology Centre, renamed the Centre for Pest Management in the 1980s, was headed by a Director, who was responsible for the planning and development of programs within the Centre and the promotion of external relations. The Director was also actively involved in a number of international organizations for biological control and entomological research. The Director reported to the Department Chair.

The Department was involved in or associated with university interdisciplinary research institutes which conducted both research and instruction. These included the Centre for Pest Management and the Institute of Molecular Biology and Biochemistry (IMBB). The IMBB was established in 1987 as an interdisciplinary graduate research institute, and its members held appointments in Biological Sciences and/or Chemistry. The Department was also affiliated with several bodies responsible for research. These research groups included the Behavioural Ecology Research Group (BERG), the Chemical Ecology Research Group (CERG), the Institute of Aquaculture Research (IAR), the Institute of Quaternary Research (IQR), the R.H. Wright Institute for Sensory Science (WISS), and the Western Canadian Universities Marine Biological Society (WCUMBS).

From its inception the department expanded greatly in terms of the size of its faculty and the number of programs offered. In 1965, the department consisted of six faculty, and increased to thirty by 1969 and forty by 1994. A significant addition to its program offerings was the establishment in 1973 of the Master of Pest Management degree program.

The first Director of the Centre for Pest Management was Dr. Bryan P. Beirne, who served until 1980. In 1986, Dr. J.P. Manfred Mackauer became the new Director, and he was succeeded by Dr. Zamir Punja in 1993.

Scope and content

The fonds of the Department of Biological Sciences consists of records created and received in the course of the administration of the department and the carrying out of its functions of providing instruction and promoting research. The activities documented include the administration of the department and its facilities; departmental, faculty, and external meetings; research proposals and funding applications; correspondence with university and external bodies and persons; curriculum and program planning, development and delivery; and the promotion and advertisement of the department's curriculum, programs and activities. The types of documents include meeting agenda and minutes, correspondence, directives, photographs, published materials, and research papers.

Notes

Title notes

- **Source of title proper:** Title of the fonds is based on the name of the department.

Immediate source of acquisition

The records of the department were transferred to the University Records Centre between 1981 and 1987.

Arrangement

The titles and arrangement of series were provided by the archivist.

Restrictions on access

Access restrictions apply in accordance with British Columbia's Freedom of Information and Protection of Privacy Act. Consult the appropriate series level descriptions and the archivist.

Finding aids

File lists are available.

Related material

Consult the inventory of the Faculty of Science fonds, F-24.

Accruals

As of January 2012, 7 cm of additional material have been accessioned but not yet processed. Please consult the archivist for information about using these materials; restrictions may apply. Further accruals are expected.

Other notes

- **Publication status:** published

Series descriptions

Series F-5-1: Chairman's correspondence and reports

Date: 1965 - 1987 (date of creation)

Scope and content:

The series consists of records relating to the administrative and operational activities and interests of the department Chairman, including research, funding, relations with external bodies including the federal and provincial governments, proposals for new programs and courses, the Bamfield Marine

Station and the Master of Pest Management program. Record types include circulars, correspondence, directives, reports and working papers. For a list of correspondents (as reflected in file titles), see Access Points below.

Series F-5-2: Research grant applications

Date: 1965 - 1983 (date of creation)

Scope and content:

Series consists of records relating to departmental research grants and projects funded from both governmental and non-governmental sources. It includes correspondence, research proposals, grant applications, and working papers. Files are arranged in alphabetical order by name of faculty member; for names, see Access Points below.

Series F-5-3: Committees and meetings

Date: 1965 - 1989 (date of creation)

Scope and content:

Series consists of records relating to the decisions, actions and activities of various departmental and faculty academic and administrative committees. The majority of files relate to the Departmental Undergraduate Curriculum Committee (DUCC) and the Departmental Graduate Studies Committee (DGSC), but see Access Points below for full list of committees represented. The series includes meeting agenda and minutes, correspondence, reports, and working papers.

Series F-5-4: Printed materials

Date: 1966 - 1988 (date of creation)

Scope and content:

Series consists of printed and published materials relating to the promotion and advertisement of department courses, programs and activities. It includes brochures, pamphlets, and circulars; materials from the 1960s prepared by the Academic Board for Higher Education in British Columbia; the departmental newsletter Bio-Bull (1975-1976); a report by marine biology students on British

Columbia as a maritime province (1975); and a report of the Behavioural Ecology Research Group on its activities for the period 1983-1988.

Physical description: 4 cm of textual records

Series F-5-5: Departmental files

Date: 1964 - 1985 (date of creation)

Scope and content:

Series consists of records relating to the administrative and operational activities and responsibilities of the department. These activities include relations with other departments of the university, other universities, colleges, high schools, governments, organizations, and corporations. Also documented are activities relating to enrollment, undergraduate and graduate student curricula, administrative systems and procedures, departmental policies, transfer credits, bursaries and scholarships, public relations, teaching, facilities and research. The series includes correspondence, copies of Senate minutes detailing appointments, and memoranda. For a partial list of correspondents, see Access Points below; names have been registered as access points if they appear in file titles.

- University Library

Arrangement:

This series is a combination of two original filing systems: Departmental files from 1969-1978 and Office files from 1978-1983. A subject/organization-based numeric classification system was used to manage both sets of files. However, successive Record Centre transfers at different times has degraded the integrity and arrangement of these original file classification schemes. Some of the original block groupings for these records are evident in the series box-file lists, but no consistent attempt was made to reproduce this arrangement. The Departmental files are organized according to subject and administrative unit.

Series F-5-6: Curriculum and programs

Date: 1968 - 1978 (date of creation)

Scope and content:

Series consists of records relating to the courses offered by the department, including course content, requirements, expectations and examinations. It includes correspondence, course outlines, sample examination papers, and reports.

Physical description: 57 cm of textual records

Series F-5-7: Centre for Pest Management files

Date: 1962 - 1979 (date of creation)

Scope and content:

The chief function of the Centre for Pest Management was the administration and promotion of pest management research and the provision of instruction. In meeting this responsibility, its Director worked to forge links with other universities, research institutes and professional associations, as well as to attract eminent pest management experts, entomologists and plant pathologists to give guest lectures or conduct research. It also provided a place of instruction for students in all degree programs. Series consists of records relating to the administrative and operational activities and responsibilities of the Centre. It includes meeting agenda and minutes, correspondence, course and program proposals and outlines, directives, proposals, published materials, reports, and working papers.

File / item list

| Ref code | Title | Dates | Access status | Container |
|--------------|---|-------------|----------------|-----------|
| F-5-7-4-0-1 | File - Filing index for Pestology Centre (1967-1971 inclusive) | 1971 | Pending review | 5-36 |
| F-5-7-4-0-2 | File - International Biological Program correspondence | 1966 | Pending review | 5-36 |
| F-5-7-4-0-3 | File - International Biological Program correspondence | 1967 | Pending review | 5-36 |
| F-5-7-4-0-4 | File - International Biological Program correspondence | 1968 - 1970 | Pending review | 5-36 |
| F-5-7-4-0-5 | File - International Biological Program correspondence and reports | 1964 | Pending review | 5-36 |
| F-5-7-4-0-6 | File - International Biological Program correspondence and reports | 1966 | Pending review | 5-36 |
| F-5-7-4-0-7 | File - International Biological Program correspondence and reports | 1967 - 1970 | Pending review | 5-37 |
| F-5-7-4-0-8 | File - International Biological Program - Pacific Science Congress | 1970 - 1971 | Pending review | 5-37 |
| F-5-7-4-0-9 | File - International Advisory Committee for Biological Control correspondence | 1966 | Pending review | 5-37 |
| F-5-7-4-0-10 | File - International Advisory Committee for Biological Control correspondence | 1967 | Pending review | 5-37 |
| F-5-7-4-0-11 | File - International Advisory Committee for Biological Control correspondence | 1968 - 1970 | Pending review | 5-37 |
| F-5-7-4-0-12 | File - International Advisory Committee for Biological Control correspondence | 1965 - 1967 | Pending review | 5-37 |
| F-5-7-4-0-13 | File - Symposium on Systematic Entomology | 1969 | Pending review | 5-37 |
| F-5-7-4-0-14 | File - International Organization for Biological Control | 1968 - 1970 | Pending review | 5-37 |
| F-5-7-4-0-15 | File - Commonwealth Scientific and Industrial Research Organization | 1968 - 1971 | Pending review | 5-37 |
