## CHANCELLOR'S WELCOME

It is with the greatest joy that I welcome you to the June 2020 Simon Fraser University Convocation. Although we are unable to gather in person to celebrate this long-awaited day, I hope you feel within you, as I do, at this moment, a heartfelt sense of belonging, pride and success.

The word Convocation means "calling together" and truly today we are called together in celebration even though we are at a distance from each other. Physical separation cannot prevent us from uniting this Convocation Day in the joy of achievement and completion. Convocation Day is this year more than

ever a chance for your peers, mentors, supporters, professors, family, friends and admirers to stop and to take time to recognize and applaud your accomplishments.

It is appropriate for us to take a moment to think back to the launch of Simon Fraser University on September 9, 1965, when 2,500 charter students crossed the threshold of this institution. On that date, 55 years ago, those students made the same commitment to continued discovery, learning, listening and dialogue that you now embody.

The same youthful, creative and yes, even radical energy that characterized SFU in 1965 continues to flourish. In the intervening years we have grown not just in size and numbers but also in collective spirit and purpose. Our three campuses welcome more than 35,500 students each year, and today's graduates join an alumni family that numbers over 165,000, and spans the world. Just as today, while our work and further studies will take us all over the globe, in this era of shared purpose and connectedness we are undivided by geography or undertaking.

We, the people of SFU, are linked more than ever by our common roots. Together we build and stand on a foundation that will be an ongoing source of support and strength for us all.

Today is the moment to celebrate and honour the effort and accomplishments of our students and those who have taught and nourished them. But this is not a leave-taking. The ceremony of Convocation is not an end point. It is not your destination. Instead, Convocation is a way station on your journey of lifelong learning and your path of passionate engagement.

Travel well. Shed light for those who travel in the dark. Be curious. Be creative. Be a force for good. Show the world that SFU has helped you to become your best self.

And be sure your journey sometimes brings you back to this place, these people, your own SFU. I for one can't wait to welcome you again, as continuing students, as teachers, as colleagues, as mentors, as parents, as supporters and as friends.

**Anne Giardini, O.C., O.B.C., Q.C.  
Chancellor**

## PRESIDENT'S WELCOME

Convocation at Simon Fraser University is a wonderful celebration of an academic job well done. I join with your family, friends and others who generously supported you on your university journey in applauding this significant achievement.

Even though we are unable to be together in person for the 2020 Spring Convocation, this should not diminish

your sense of pride and feeling of accomplishment – particularly as you will have the opportunity to attend a future ceremony when it is possible to do so.

Simon Fraser University was founded 55 years ago with a mission to be a different kind of university. From our original campus high atop Burnaby Mountain, to our transformative presence in downtown Vancouver and in Surrey City Centre, SFU has always had a strong commitment to contribute to society, to embrace new initiatives and to engage deeply with communities near and far.

I encourage you to continue this tradition to blaze your own trail and to make a positive impact on society. While you are graduating at an uncertain and challenging time, I am confident that the knowledge, skills and experiences you have gained at SFU will serve you well, and will help you to chart a positive path forward – for yourself and for society.

Your alma mater will always be here for you, together with the many friends and colleagues you have acquired at SFU. As you graduate, you join a diverse community of more than 165,000 SFU alumni living in more than 140 countries – and truly engaging the world.

This university is built on the premise that the greatest innovations in history have come from people bold enough to explore new frontiers and to take novel approaches.

W.B. Yeats observed: "Education is not the filling of a pail, but the lighting of a fire." That fire is burning brightly within each of you today – a flame that will sustain you in the years to come.

Hearty congratulations to our graduates, and thank you all for being part of this happy occasion.

**Andrew Petter, C.M., Q.C.  
President and Vice-Chancellor**

As President of SFU's Alumni Association, I congratulate you on receiving an academic credential from SFU! This is an accomplishment that has taken significant time, energy, and support to achieve.

I also welcome you as lifetime members of our dynamic and diverse worldwide network that is now more than 165,000 strong in over 140 countries. The community you are joining is vast, spans all industries and sectors, and includes alumni who graduated more than 50 years ago.

SFU and our Alumni Association are your lifelong partners. As your journey continues, we are here to help you expand your personal and professional network through our events and initiatives, and to support your success by offering a selection of alumni benefits that include career services, library services, and preferred rates on programs that address your personal and professional interests and development.

We will be reaching out to ask you to remain engaged by helping us advance and enhance the experience for future graduates. There are many helpful and rewarding capacities in which you can give back including serving as a mentor, guest speaker, co-op advocate, research partner, and donor.

Please keep your email and mailing addresses up to date with SFU so we can help you make and maintain connections, inform you of upcoming events, and let you know about opportunities to remain involved and engaged with our great university.

Like any strong community, we take pride in your accomplishments – so please keep us informed of your life journey, and watch our social media channels for information on the accomplishments of fellow grads.

Alumni are SFU's greatest ambassadors; thank you in advance for helping to showcase the value of your SFU education and the impact that it will have as you engage the world.

## HISTORY

The university is named after Simon Fraser, loyalist, fur-trader and explorer, who in 1808 completed one of the greatest journeys in the annals of Canadian history by descending the mighty river which today bears his name.

In January 1963, a report recommended the creation of a new university in the Lower Mainland — two months later the establishment of Simon Fraser University received formal assent in the British Columbia Legislature, and Dr Gordon M. Shrum was appointed the first Chancellor.

From a variety of sites, the Chancellor recommended the top of 1,200 foot high Burnaby Mountain, with its magnificent views of Burrard Inlet, the Coast Mountains, the Fraser River and Vancouver harbour. The then district of Burnaby donated the land for the university. The Vancouver firm of Erickson/Massey won the design competition, but the four runner-up architects each designed at least one building within the overall plan. Construction began in the spring of 1964 and eighteen months later, on September 9, 1965, Simon Fraser University opened to 2,500 charter students.

Since then the university has expanded, first in downtown Vancouver and subsequently in the Surrey Central district. The Vancouver campus has grown from a modest storefront offering night school classes in the early '80s to the largest post-secondary institution downtown. SFU Vancouver's nine

sites offer degree and continuing studies opportunities for students of all ages and include several galleries, innovation centres, a student residence and the internationally renowned Morris J Wosk Centre for Dialogue. SFU's Vancouver campus celebrated 30 years of learning, research and community engagement in 2019.

Since 2002, SFU's Surrey campus has helped define and shape Surrey's city centre. The campus offers a diverse number of undergraduate, graduate and continuing studies courses and is home to world-class, leading edge research in health, energy and creative technologies. It also supports a thriving entrepreneurial learning environment. The campus currently occupies a stunning facility designed by renowned architect Bing Thom. In the fall of 2019, SFU's Surrey campus opened its newest building. This 160,000 square foot building, the last building designed by the late Bing Thom, houses SFU's new sustainable energy engineering program, and features innovative labs and a 400-seat lecture theatre for both academic and community use.

Simon Fraser University has been characterized by its adventurous spirit, openness and willingness to embrace bold initiatives. SFU's unique educational programs, inspired research and vibrant community relations have set it apart from other universities — in B.C. and in Canada.

## SPRING 2020 HONORARY DEGREE RECIPIENTS

---

**Dr Beth Allen a.k.a. Bif Naked**  
**Doctor of Fine Arts,**  
***honoris causa***

A gold and platinum-selling rock star, best-selling international author, hit songwriter, international performer, human and animal rights advocate, Dr Beth Allen – better known by her stage name Bif Naked – is an icon of Canadian rock music. Working more than two

decades in a male-dominated industry, Dr Allen has released 11 albums and founded her own record label. Her single ‘Spaceman’ (1998) reached No. 1 on the Canadian Billboard Top 100 and No. 2 on the Billboard International charts. It remains the highest-spun independent song in Canadian history. While establishing herself as one of Canada’s biggest rock stars, Dr Allen overcame personal struggles, including a battle with breast cancer, kidney failure and heart surgery. She supports many non-profit organizations, including B.C. Poverty Reduction, Paws for Hope Animal Foundation, the SPCA and AIDS Vancouver.

**Dr John Borrows**  
**Doctor of Laws,**  
***honoris causa***

Dr John Borrows is a leading authority on Indigenous, constitutional and environmental law whose scholarship is having a transformative impact on reconciliation efforts in Canada and around the world. Dr Borrows, a member of the Chippewa of the Nawash First Nation in Ontario, holds the Canada Research Chair in Indigenous Law at the University of Victoria (UVic) Law School. Among his accomplishments, which include a dozen books on Indigenous law, treaties and land claims, Dr Borrows co-founded the world’s first Indigenous law degree in 2018 at UVic. He secured provincial funding to support the program and federal funding to establish a National Centre for Indigenous Law & Reconciliation. Dr Borrows is a fellow with the Trudeau Foundation and with the Royal Society of Canada and is the recipient of several honorary degrees.

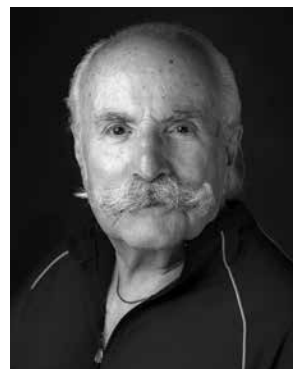

**Dr Randy Boyagoda**  
**Doctor of Letters,**  
***honoris causa***

Dr Randy Boyagoda is an award-winning Canadian writer, critic and scholar who has made substantial contributions to literature, cultural commentary and social critique. The principal and vice-president of the University of St. Michael’s College in the University

of Toronto, Dr Boyagoda is the author of three satirical and critically acclaimed novels. He has been nominated for the Scotiabank Giller Prize (2006) and the IMPAC Dublin Literary Prize (2012). His fiction explores human experience concerning identity, politics, ambition, culture and faith. His most recent novel, *Original Prin* (2018), was named a *Globe and Mail* Best Book of the Year and he is a frequent contributor to the *The New York Times*, *The Wall Street Journal*, *Harper’s Magazine*, *The Walrus*, and *The Globe and Mail*.

**Dr Vincent Di Lollo**  
**Doctor of Science,**  
***honoris causa***

Dr Vincent Di Lollo is one of the world’s foremost cognitive scientists. His research on brain processes has improved humankind’s fundamental understanding of perception and cognition. Dr Di Lollo has published more than 200 scientific papers and conference proceedings, and his work is listed among the contributions that triggered the most significant changes in psychological research in the 20th Century. Over the course of his career, Dr Di Lollo has been a champion for Canada’s academic community. A fellow of the Royal Society of Canada, he served as president of the Canadian Society for Brain, Behaviour and Cognitive Science and twice chaired the Natural Sciences and Engineering Research Council’s grant selection committee. He is past editor of the *Canadian Journal of Psychology*.

## SPRING 2020 HONORARY DEGREE RECIPIENTS

---

**Dr Mariana Mazzucato**  
**Doctor of Laws,**  
***honoris causa***

Celebrated economist Dr Mariana Mazzucato is a professor in the Economics of Innovation and Public Value at University College London, where she is the founding director of the Institute for Innovation & Public Purpose. She advises policymakers around the world on

innovation-led growth, including the governments of Scotland, South Africa, Norway and Sweden as well as the Organisation for Economic Co-operation and Development (OECD) and the United Nations. She is the author of award-winning books *The Entrepreneurial State* (2013) and *The Value of Everything* (2018), and most recently won the 2018 Leontief Prize for Advancing the Frontiers of Economic Thought and the 2019 All European Academies Madame de Staël Prize for Cultural Values. *New Republic* dubbed her one of the 'three most important thinkers about innovation' and *Wired* named her as one of the top 25 people shaping the future of capitalism.

**Dr George P. Smith**  
**Doctor of Science,**  
***honoris causa***

Dr George P. Smith is the co-winner of the 2018 Nobel Prize for Chemistry for his contribution to 'phage display' technology. Dr Smith, an emeritus professor of biological sciences at the University of Missouri, contributed seminal works in immunology and molecular

evolution before turning to bacteriophage research in 1977—the research from which phage display emerged starting in 1985. That technology allows researchers to create efficient artificial systems for evolving new proteins and peptides with desired properties, such as binding tightly to a biomolecule implicated in disease. This has led, among other things, to a quantum leap in the effectiveness of therapeutic antibody discovery, now one of the largest pipelines of new drug development. Such antibodies are being used to neutralize anthrax, alleviate arthritis and combat Alzheimer's disease.

**Dr Sophie Pierre**  
**Doctor of Laws,**  
***honoris causa***

A long-time champion of Indigenous education and economic development, Dr Sophie Pierre is the former chief commissioner of the B.C. Treaty Commission and is an accomplished and recognized Indigenous leader in Canada. Dr Pierre, who spent 26 years as elected chief of the ʔaq'am (formerly St. Mary's Indian Band) of the Ktunaxa Nation, fought for Indigenous control over education and dedicated herself to improving economic development. Her advocacy for women, family mediation and the elderly has improved the quality of lives of Indigenous people. Her experience in treaty negotiations was recognized with her appointment as chief commissioner of the B.C. Treaty Commission. Dr Pierre has received the Peter Lougheed Award for Leadership in Public Policy and is named to the orders of B.C. and Canada.

**Dr Diane Sowden**  
**Doctor of Laws,**  
***honoris causa***

Dr Diane Sowden is a tireless champion in the struggle against the sexual exploitation of children. Before retiring last year, Dr Sowden spent 25 years as executive director of the Children of the Street Society, raising awareness in B.C. about child exploitation and sex trafficking. A long-time Coquitlam school trustee, adoptive and foster parent to more than 30 children and adults with disabilities, Dr Sowden co-founded the society in 1995 after her then 13-year-old daughter was lured into drug addiction and was sold into sex work to cover a drug debt. Over the years, her organization has educated thousands of youth, parents, caregivers and teachers to prevent children from being drawn into the sex trade. The organization helped teens and their families navigate the courts and successfully lobbied government for laws to ensure children are safer.

## GRADUAND SPEAKERS

---

*Graduand speakers were selected by the faculties and the registrar based on student achievement and extracurricular involvement.*

**Mr Hamza Abdelrahman, BA, Economics**  
**Faculty of Arts and Social Sciences**

Mr Hamza Abdelrahman is celebrating the completion of his honours bachelor of arts degree in economics after four years filled with high academic achievements and community engagement. Since joining SFU in 2016 as a Major Entrance Scholarship recipient, he has completed three co-op work terms and volunteered with multiple groups on campus. He has received a number of awards, including the Glenn Berg Award for academic excellence in economics; the Big Data Research Award; the NSERC Undergraduate Student Research Award; and the Robert C. Brown Award for outstanding leadership and academic performance. He plans on completing graduate studies in economics and has set his career sights on becoming the prime minister of his home country, Jordan.

**Ms Halimah Beaulieu, MA, Education**  
**Faculty of Education**

Ms Halimah Beaulieu is graduating with a master of arts in equity studies in education, where she examined the power of reading Indigenous literature in Canadian settler society. Her SFU journey has been an enduring one—she completed a double degree in English and communications and worked in research and communications at the university prior to graduate school. She is an athlete with the Greyhounds Masters Track & Field Club and is planning a career in government relations, policy analysis or law. As much as she wants to run faster, she also wants to continue having difficult conversations about decolonization, racism and political accountability. She dreams about launching an Indigenous-led teaching strategy to incorporate literary works by Aboriginal writers in school curriculums in meaningful ways.

**Mr Adam Bignell, BSc, Computing Science**  
**Faculty of Applied Sciences**

Mr Adam Bignell is graduating with an honours bachelor of science in computing science, with a minor in cognitive science. He began his SFU journey as a volunteer in Mark Blair's Cognitive Science Lab, where he wrote scripts to help process data for a study on learning. He later practiced coding in an enterprise environment at Safe Software, and attended Valentine Kabanets' theory seminars weekly. He received an NSERC Undergraduate Student Research Award to study a robotics task in Richard Vaughan's Autonomy Lab, and presented his research at the 2019 International Conference on Robotics and Automation. In his final year, he worked at Google writing software to detect phishing attempts in emails. He will soon move to Mountain View, California to work for Google as a software engineer.

**Mr Ian C. Chagunda, BSc, Chemistry**  
**Faculty of Science**

Mr Ian Chagunda is graduating with a bachelor of science in chemistry focusing on inorganic synthesis. During his time at SFU, he found his passion combining research and student engagement. Mr Chagunda worked as an undergraduate research assistant in the Walsby Research Group, working on metal-based anticancer compounds, and winning an

NSERC Undergraduate Student Research Award and a Department Presentation Award. He also served on the Chemistry Student Society as the department representative, acting as the student voice on the Department Undergraduate Studies Committee. Three co-op work terms helped define his academic experience at SFU and set the direction for a future career in research. This fall, he will begin graduate studies in chemistry at the University of Victoria.

**Mr Benjamin McGuinness, BA, Communication**  
**Faculty of Communication, Art and Technology**

Mr Benjamin McGuinness is graduating with a bachelor of arts in communication after having previously completed an associate of arts degree at Douglas College. At SFU, he appeared regularly on the dean's honour roll and the president's honour roll. Through the co-op program, he worked at Health Canada in Ottawa, BCNET, and in the Dean's Office as a research assistant. Always an engaged student, he volunteered at events through the Student Ambassador Program and contributed to the Student IT Advisory Committee. He also enjoyed writing for *The Peak*, SFU's student newspaper, where he earned a coveted "Peakie" award for his enthusiasm and involvement. He is interested in working in the public sector and is exploring options for graduate studies.

**Ms Kristin Oliver, BA, Archaeology**  
**Faculty of Environment**

Ms Kristin Oliver is graduating with a bachelor of arts in archaeology. While completing her degree, she volunteered as a peer mentor and served as treasurer, and then president, of the Archaeology Student Society. Her primary academic interests are fish (archaeo-ichthyology), environmental archaeology, historical ecology and food sovereignty, working particularly with and for coastal nations. She enjoys hiking, fishing and exploring with her dog, and looks forward to beginning graduate studies in archaeology this fall.

**Ms Kimberley Venn, BBA, Marketing and Operations**  
**Beedie School of Business**

Ms Kimberley Venn is graduating with an honours bachelor of business administration with a concentration in marketing and operations, as well as two certificates: the business analytics and decision-making certificate and the Charles Chang certificate in innovation and entrepreneurship. With a passion for problem-solving, Ms Venn has represented SFU around the world in international case competitions and has won three times, including once at the Global Challenge at Oxford University. She has held multiple leadership positions in student organizations including Enactus and CaseIT; volunteered as a writing mentor; represented Beedie as an ambassador; studied abroad in Denmark; and co-founded the Marketing Accelerator Program. This fall, she will begin her consulting career as a business analyst with McKinsey & Company.

## MEDAL RECIPIENTS

---

### GOVERNOR GENERAL'S GOLD MEDAL

*Awarded to the two graduate students who achieve the highest academic standing upon graduation from a master's or doctoral degree program.*

#### **Dr Michael Adamski, PhD**

##### **Faculty of Science**

Dr Michael Adamski invented a series of advanced plastic materials for next-generation, renewable energy technologies. His work is published in 10 high-impact academic journals, collectively showcasing a new class of materials with improved stability and performance over current standards in hydrogen fuel cells. Graduating with a PhD in less than 4 years with a 4.33 CGPA, he received numerous financial and research recognitions, including awards for national and international conference presentations. His patented class of materials are licensed by SFU for large scale production and commercialization. He continues to be involved as these materials are developed for global clean energy and CO2 mitigation initiatives.

#### **Dr Taylor Anderson, PhD**

##### **Faculty of Environment**

Dr Taylor Anderson's dissertation advances geographic information science by developing and implementing novel spatial modelling approaches. These approaches, applied to insect infestation and infectious disease spread, provide decision-making tools for forecasting and scenario-testing processes. Dr Anderson's enthusiasm for research and innovation led to several awards, including the NSERC Alexander Graham Bell Canada Graduate Scholarship and the 2020 William L. Garrison Award for Best Dissertation in Computational Geography. Her research is published in eight journals, two book chapters and four conference papers. In January 2020, she became a tenure-track assistant professor in the department of geography and geoinformation science at George Mason University in Virginia, USA.

### GRADUATE DEAN'S MEDAL

*Recognize graduating students from each faculty whose cumulative grade point average places them in the top five per cent of their class.*

#### **Dr Sib0 Chen, PhD**

##### **Faculty of Communication, Art and Technology**

Dr Sib0 Chen's doctoral research examines stakeholder communications and media coverage concerning B.C.'s pursuit of liquefied natural gas exports. This dissertation revealed polarizing public debates on B.C.'s resource-driven economic development and innovative strategies adopted by activists to challenge the status quo of Canadian climate politics. These findings have important theoretical and policy implications for future public debate on unconventional fossil fuels. Dr Chen received several awards throughout his graduate career at SFU, including the prestigious Vanier Canada Graduate Scholarship from SSHRC. He is now assistant professor in the School of Professional Communication at Ryerson University where he continues his research on Canada-China energy relationships.

#### **Dr Alexandra Collins, PhD**

##### **Faculty of Health Sciences**

Dr Alexandra Collins' doctoral research examined social and structural drivers of overdose risk for unstably housed women drug-users in Vancouver. Her work challenges conventional understandings of harm among marginalized people who use drugs and highlights how social positionality produces different overdose risk. Her research also advanced social ecological approaches to substance use research by developing an intersectional risk environment approach. She received numerous awards, including the prestigious Vanier Canada Graduate Scholarship, and her research is featured in leading academic journals and conferences. Dr Collins is currently a postdoctoral research associate at Brown University conducting community-engaged research on overdose-related interventions and access to care for people who use drugs.

#### **Dr Zhiwei Deng, PhD**

##### **Faculty of Applied Sciences**

For his PhD thesis, Dr Zhiwei Deng studied the intersection of computer vision, deep learning and general-purpose reasoning methods. He discovered and proposed a model that analyzes multi-person human activities using graph-based algorithms, which has important application in surveillance videos at hospitals and nursing homes. He also collaborated with researchers from industrial labs such as Disney Research and Facebook Reality Labs to develop algorithms for analyzing human facial expression and generating human motions or gestures. During his Postdoctoral Fellowship, he will work on algorithms to teach machines to see, act and reason with the real-world data and for graphical distribution modeling.

## GRADUATE DEAN'S MEDAL

### **Mr Kristinn Cameron Frederickson, MBA** **Beedie School of Business**

Mr Kristinn Frederickson is a Métis sustainability professional with an engineering and business background. He has an undergraduate and master's degree in biosystems engineering from the University of Manitoba and an MBA in Indigenous business & leadership from SFU. His recent research explores innovative traditional Indigenous governance structures advancing reconciliation, overcoming economic prosperity barriers, and building green power sources through a private equity model. Mr Frederickson leads a team that stewards Suncor Energy's sustainability disclosure and strategic external engagement. He has served in leadership capacities on various boards, most recently as the vice-chair of the University of Calgary's Board of Governors. He received an Action Canada Fellowship and a National Aboriginal Achievement Award.

### **Dr Daniel Allen Greenberg, PhD** **Faculty of Science**

Dr Daniel Greenberg's doctorate focused on how evolutionary history shapes which species are currently winners, or losers, in a world of rapid, human-driven environmental change. He found that amphibian susceptibility to disease, deforestation and climate change are all shaped by the evolutionary legacies of species, and therefore extinctions are likely to be clustered in particular amphibian lineages. Dr Greenberg is now studying modern extinctions across other vertebrate groups, and will be analyzing three decades of fish biodiversity change across the world's coral reef ecosystems in a future postdoctoral appointment. Ultimately, he aims to understand how humanity's unprecedented ecological impacts are poised to reshape the evolutionary tree of life.

### **Dr Olivia Kanna, PhD** **Faculty of Education**

Dr Olivia Kanna is a lifelong learner and the recipient of several awards and scholarships including a graduate fellowship and three academic gold medals. She earned her third master's degree in education at SFU in teaching English as an additional language with a CGPA of 4.00. Her 12 years of work experience as a language educator teaching immigrants and refugees in Vancouver led to her doctoral research to address trauma in the classroom and work towards wellbeing and healing. Dr Kanna undertook postdoctoral training in the Harvard Program in Refugee Trauma at Harvard Medical School and is planning to work in human rights in the post-COVID world.

---

## GRADUATE DEAN'S MEDAL

### **Ms Anne Elise St. Clair, MRM** **Faculty of Environment**

Ms Anne Elise St. Clair's master's thesis identified how backcountry recreationists incorporate avalanche bulletin information into travel decisions. Her research offers prescriptive, stage-based solutions for risk communication design. She was awarded a Graduate Dean's Entrance Scholarship to support her doctoral studies at SFU. Through Indigenous-led research collaborations with Avalanche Canada and the Canadian Mountain Network, she aims to better understand the diverse risk contexts and communication challenges faced by mountain communities impacted by avalanche hazard in Canada, particularly in under-served regions with increased vulnerability to climate change. She is eager to contribute to more targeted, equitable and effective communication strategies for complex environmental risks.

### **Dr Erin Thrift, PhD** **Faculty of Education**

Dr Erin Thrift's educational psychology PhD thesis focuses on the meaning and practices of social justice in education. Social justice is often used to justify educational programs and policies, but references are vague, drawing on varied, sometimes conflicting, philosophical theories. Dr Thrift's SSHRC-funded research explains how political events and shifts in sociopolitical thought over centuries contribute to current divergent views of social justice, with implications for educational practice. This historic account allows for social justice initiatives in education and psychology to be evaluated. Dr Thrift's scholarship is featured in numerous publications and at international conferences. She lives in East Vancouver with her family and is a lecturer in counselling psychology at SFU.

### **Dr Kyle Willmott, PhD** **Faculty of Arts and Social Sciences**

Dr Kyle Willmott's doctoral research is in the subfields of political sociology, economic sociology, Indigenous policy and the social study of taxation. His dissertation, *Taxpayer Governmentality*, examines how taxpayer political identity operates as liberal and settler colonial imperatives of rule. His work is published in *Economy and Society* and *Critical Social Policy*. He earned a master of arts at Ryerson University, and a bachelor of arts at the University of Toronto. He is an assistant professor of sociology at the University of Alberta researching settler colonialism, policy knowledge and fiscal politics in relation to Indigenous-settler relations. Dr Willmott is a member of the Mohawks of the Bay of Quinte First Nation.

### GRADUATE DEAN'S MEDAL

#### **Dr Dylan Clifford McCavour Wiwad, PhD**

##### **Faculty of Arts and Social Sciences**

For his doctoral dissertation, Dr Dylan Wiwad explored how to address economic inequality through psychology. He found that beliefs about the causes of poverty are one significant driver of tolerance for economic inequality. Additionally, he found that an immersive poverty simulation intervention is an effective tool for creating lasting reductions in tolerance for economic inequality – a finding with important implications for social policy. Over the course of his graduate career, Dr Wiwad received more than \$130,000 in funding to support his master's and doctoral research. He is currently a postdoctoral fellow in the Kellogg School of Management at Northwestern University researching the psychological underpinnings of politically motivated responses to poverty, inequality and fairness.

#### **Dr Alex Zucca, PhD**

##### **Faculty of Science**

Dr Alex Zucca obtained a master in theoretical physics in Trieste, Italy, where he studied how neutrinos affect galaxy clustering in extensions of Einstein's General Relativity. He joined SFU's cosmology group with an \$18,000 entrance scholarship. There, he modelled cosmological observables in various models of physics. He developed two widely used tools to test modified-gravity models and primordial magnetic fields with cosmological data. After his PhD, he joined D-Wave Systems in a joint postdoctoral appointment with SFU, where he worked on quantum computers. He was recently hired at D-Wave as an algorithm researcher. Dr Zucca qualified for the X-Terra triathlon world championships in Hawaii in 2017.

### GOVERNOR GENERAL'S SILVER MEDAL (UNDERGRADUATE)

*Awarded to the two undergraduate students who achieve the highest scholastic standing upon graduation from a bachelor's degree program.*

#### **Mr Adam Bignell, BSc, Computing Science**

##### **Faculty of Applied Sciences**

Mr Adam Bignell is graduating with an honours bachelor of science in computing science, with a minor in cognitive science. He began his SFU journey as a volunteer in Mark Blair's Cognitive Science Lab, where he wrote scripts to help process data for a study on learning. He later practiced coding in an enterprise environment at Safe Software, and attended Valentine Kabanets' theory seminars weekly. He received an NSERC Undergraduate Student Research Award to study a robotics task in Richard Vaughan's Autonomy Lab, and presented his research at the 2019 International Conference on Robotics and Automation. In his final year, he worked at Google writing software to detect phishing attempts in emails. He will soon move to Mountain View, California to work for Google as a software engineer.

#### **Mr Nikola Surjanovic, BSc**

##### **Statistics and Actuarial Science**

##### **Faculty of Science**

Having recently completed his bachelor of science in statistics and actuarial science, Mr Nikola Surjanovic is currently enrolled as a master's student in statistics at SFU. As an undergraduate, he completed two research terms and presented findings at the 2018 Joint Statistical Meetings in Vancouver, as well as at the 2019 Canadian Statistics Student Conference in Calgary. He was a member of the SFU Concert Orchestra, and was involved as an executive in his department's undergraduate student association and its graduate student caucus. He previously served as the Industry Partnership Coordinator for the 2019 BC Undergraduate Mathematics and Statistics Conference. He hopes to become a professor of statistics.

### LIEUTENANT GOVERNOR'S MEDAL FOR INCLUSION, DEMOCRACY AND RECONCILIATION (UNDERGRADUATE)

*Awarded to an outstanding undergraduate student in any faculty who has completed the requirements for a bachelor's degree and/or a certificate or a post-baccalaureate diploma and has demonstrated academic excellence and outstanding contributions in support/promotion of one or more of the following areas: (1) inclusion, (2) democracy and/or (3) reconciliation, on campus or in their communities.*

#### **Ms Xilonen Hanson Pastran, BA, Criminology Faculty of Arts and Social Sciences**

Ms Xilonen Hanson Pastran is graduating with a bachelor of arts in criminology and Indigenous studies. A passionate social justice advocate, she contributed to local and provincial anti-violence projects during a student placement at the Ending the Violence Association of British Columbia. She also served as an executive member of an environmental and social activism club and led a waste-reduction campaign on campus that elicited support from local business. Her understanding and appreciation of "student power" were strengthened by witnessing and participating in student-led calls to action on campus, such as the Tuition Freeze movement. She will begin law school at the University of Victoria this fall.

---

### GORDON M. SHRUM UNDERGRADUATE MEDAL

*SFU's most prestigious undergraduate medal is bestowed on the graduating student whose high scholastic standing and extracurricular activities demonstrate outstanding qualities of character and unselfish devotion to the university.*

#### **Mr Raaj Chatterjee, BAsC Mechatronic Systems Engineering Faculty of Applied Sciences**

Mr Raaj Chatterjee is graduating with a bachelor of applied science in mechatronic systems engineering. He credits his SFU experience for helping him to develop leadership and advocacy skills and to "find joy." He served as president of SFU 350, SFU's climate action team, and co-founder of Team Phantom, SFU's formula electric race vehicle design team. He has researched sustainable energy conversion, and has done cutting-edge neuroscientific interventions for mental health—an area he is now pursuing in graduate school. Through the co-op program, he applied his engineering skills to help design products at D-Wave and Apple. Through SFU's entrepreneurship program, he created two social-impact ventures and has been a champion for diversity, equity and inclusion on the board of a national environmental charity, The Starfish.

### UNDERGRADUATE DEAN'S MEDAL

*Recognize undergraduate students in each faculty whose cumulative grade point average places them in the top five per cent of their class.*

#### **Ms Ruby Barnard, BA, Geography Faculty of Environment**

Ms Ruby Barnard is graduating with a bachelor of arts in geography. She credits SFU's interdisciplinary focus for allowing her to further her various interests and encouraging her passion for sustainability and social justice. While on campus, she received the Warren Gill Memorial Award for her leadership and service in the SFU community and the community at large. Having acquired "the skills to look critically at the world and a desire to change it for the better," she will continue to pursue her humanitarian goals while completing a master of architecture at the University of British Columbia.

#### **Ms Salina Kung, BSc Biomedical Physiology and Kinesiology Faculty of Science**

A recipient of a Schulich Leadership Scholarship from SFU, Ms Salina Kung is graduating with a bachelor of science in biomedical physiology and kinesiology. While a student, she also worked as a research assistant, co-hosted club events and charity galas, volunteered at a local hospital and other community organizations, and mentored incoming SFU students. Ever grateful to SFU for teaching her to be "a better learner," she is currently studying medicine at the University of British Columbia.

#### **Mr Benjamin McGuinness, BA, Communication Faculty of Communication, Art and Technology**

Mr Benjamin McGuinness is graduating with a bachelor of arts in communication after having previously completed an associate of arts degree at Douglas College. At SFU, he appeared regularly on the dean's honour roll and the president's honour roll. Through the co-op program, he worked at Health Canada in Ottawa, BCNET and in the Dean's Office as a research assistant. An engaged student, he volunteered at events through the Student Ambassador Program and contributed to the Student IT Advisory Committee. He also enjoyed writing for *The Peak*, SFU's student newspaper, where he earned a coveted "Peakie" award for his enthusiasm and involvement. He is interested in working in the public sector and is exploring options for graduate studies.

### UNDERGRADUATE DEAN'S MEDAL

#### **Mr Jonathan Mendel, BA, Psychology Faculty of Arts and Social Sciences**

Mr Jonathan Mendel is graduating with an honours bachelor of arts in psychology. He is grateful for the opportunity to have collaborated with, and learned from, the many students and faculty members who share his passion for social justice. Under the supervision of Dr Stephen Wright, he examined the effectiveness of a poverty simulation intervention as a means of reducing prejudice towards people living in poverty. He earned the Canadian Psychological Association award for Academic Excellence for his thesis, and presented his research at undergraduate research symposiums as well as the annual Society for Personality and Social Psychology conference. This fall, he will begin graduate school at SFU under the supervision of Dr Michael Schmitt.

#### **Ms Elizabeth Pieters, BSc, Engineering Science Faculty of Applied Sciences**

Ms Elizabeth Pieters is graduating with an honours bachelor of applied science in engineering physics. She is grateful for the friends and opportunities she encountered on her academic journey. Highlights include earning an NSERC Undergraduate Student Research Award for summer research; spending a semester at TRIUMF—Canada's premier particle physics laboratory—where she placed first in the Spring Student Symposium for her presentation on gamma-ray detection; and bonding with fellow engineers during the annual Western Engineering Competition. She completed her undergraduate thesis on synthetic aperture radar in SFU's SARlab and is currently a graduate student at the McGill Space Institute, helping to design and build radio telescopes.

#### **Ms Simran Sandhu, BGS, Education Faculty of Education**

Ms Simran Sandhu is graduating with a bachelor of general studies in education. She has been the recipient of many scholarships and awards, and credits her academic success to the "endless support" and involvement of professors, peers, family and the SFU community. She looks forward to continuing her educational journey at SFU in the professional development program with the goal of becoming an elementary school teacher.

---

### UNDERGRADUATE DEAN'S MEDAL

#### **Mr Gary Sidhu, BBA, Business and Economics Beedie School of Business**

Mr Gary Sidhu is graduating with a bachelor of business administration joint major in business and economics, with a concentration in finance. During his time at SFU, he has received seven scholarships while also being involved with various teams. He was one of 11 students selected for the Beedie Endowment Asset Management (BEAM) Fund, where he picked stocks for the \$6.7-million student-run investment fund. He was also a part of SFU's Bank of Canada Governor's Challenge Team, where he helped analyze the Canadian economy and make policy recommendations to the Bank of Canada. He successfully completed internships in Private Equity in Montreal and Investment Banking in Vancouver, where he advised and evaluated companies in the technology sector.

#### **Ms Sumara Stroshein, BSc, Health Science Faculty of Health Sciences**

Ms Sumara Stroshein is graduating with an honours bachelor of science in health science and a certificate in genomics. While at SFU, she immersed herself in a variety of clinical and academic research experiences through the co-op program, directed studies courses, and two Undergraduate Student Research Awards (which led to two publications). The recipient of the Dr Jack Uppal Community Service award, she has engaged with the SFU community in a variety of roles including serving as the Food Systems Change Coordinator for Embark Sustainability. She was recently selected as the SFU student delegate for a University Social Responsibility Network health promotion program in China, and will begin medical school at the University of British Columbia in the fall.

#### **Ms Emily Thornton, BA, Psychology Faculty of Arts and Social Sciences**

Ms Emily Thornton is graduating with an honours bachelor of arts in psychology. She had her first taste of psychological research after joining Dr Lara Aknin's Helping and Happiness Lab as a research assistant in 2016. She later served as Dr Aknin's lab manager, and published an academic paper under Dr Aknin's supervision. Following an interest in developmental psychopathology, she joined Dr Marlene Moretti's Adolescent Health Lab in 2018, where she completed a second directed studies course and conducts independent research. She is grateful for "invaluable experiences" at SFU, and the support of her supervisors, friends and family through the years. She plans to pursue graduate studies in clinical psychology with a focus on developmental psychopathology.

## OUR TRADITION

---

---

### SYMBOLS OF SIMON FRASER UNIVERSITY

The original Coat of Arms was granted to the university in 1965 by the Lord Lyon, King of Arms, in Edinburgh. The 1965 arms was registered in Canada in 2007.

In 2007, the Canadian Heraldic Authority granted a modification of the Coat of Arms at the request of the university. The arms are based on the arms of Fraser of Lovat, from whom the university's namesake was descended via the Frasers of Culbokie. The blue quarters with white "fraises" i.e., strawberry flowers (a pun on the name Fraser) are the basic Fraser arms, while the white quarters with red crowns are those of Lovat. There are three books at the top of the shield, representing education. The heraldic description of the arms is: "Quarterly; first and fourth Azure three fraises Argent; second and third Argent three antique crowns Gules, all within a bordure quarterly Argent and Gules, on a chief Gules three open books proper, bound and edged Or."

The university's motto "Nous sommes prêts", meaning "We are ready", is a variation of the traditional motto of the Clan Fraser. The mace was commissioned by university architects Arthur Erickson and Geoffrey Massey, and was presented to the university at the opening ceremonies on September 9, 1965. The mace is 61 inches long and weighs 23 pounds. Pieces of cut and polished jade, which were taken from the university's jade boulder in the Academic Quadrangle reflecting pond, were set in silver by its designer, Haida artist Bill Reid. The mace is crowned by a silver stag's head, derived from the coat of arms of Lord Lovat, head of the Clan Fraser. The Fraser tradition was to fasten sprigs of yew in their bonnets before entering battle, and the mace was carved from twohundred- year-old yew, gathered on Burnaby Mountain by a resident in the 1940s.

Lord Lovat presented the university with a claymore, or great sword, on September 9, 1965. The claymore was first used by a Fraser at the Battle of Culloden Moor in 1746. It was also used by a Fraser at the Battle of the Plains of Abraham in 1759. The claymore is approximately 36 inches long and weighs two pounds.

The university's flag is based on the coat of arms, and was first flown at the Convocation ceremonies in June 1981.

### REGALIA

The regalia worn today by our graduates has a colourful history.

Regalia originated in the monasteries of the Middle Ages. At that time, university faculty were men of religion who wore the habit of their Order when teaching. Over time, their garments came to identify their university. In Europe, laymen did not commonly teach in universities until the 19th century. Only by 1858, for example, did British law no longer require university dons to be in holy orders. Nevertheless, professors continued to wear clerical garb, with modifications in cut and design.

Regalia colours often matched those of the university patron, or of the city in which the university was located; Simon Fraser regalia combines the red and royal blue of the Clan Fraser. (The university motto "Nous sommes prêts" or "We are ready," parallels the Clan's "je suis prêt.")

The degree hood was originally part of the monk's habit — a carryall for food or other small items. Eventually, the hood became separate from the gown, variegated in colour, and emblematic of scholars and degrees from particular universities. Hoods in Canada and Europe are unique in design and colour to each degree and each university.

The history of the mortarboard worn by our Bachelors and Masters begins with high church dignitaries in the 16th century. These officials wore hats consisting of little more than a cap with a raised, squared crown. By the 18th century, the crown had evolved into a cloth-covered board, and the wearers into the deans and rectors of universities. The 19th century saw the top knob replaced by a tassel and the cap become required student attire. Reminded of the square board masons used to hold mortar, students dubbed the headgear a "mortarboard" — college slang of the day.

Doctoral hats are patterned after the Florentine hats in the time of the Medici. Students purchased hats of the appropriate university colours when continuing with advanced studies after completing the bachelor degree.
