

ST-Applied Phonetics

Linguistics 480

Section: D100

Term: 2000 Fall

Instructor:
Dr. Murray Munro

OFFICE: RCB 9213 Tel.: 291-3654

E-Mail: mjmunro@sfu.ca

Website: <http://www.sfu.ca/~mjmunro>

Discussion Topics: EVENING

PURPOSE: This course explores the applications of the principles of phonetics to a number of interesting practical problems.

COURSE TOPICS:

Classes will consist of lectures and demonstrations. The course is organized into five sections: 1) the phonetic aspects of second language acquisition; 2) phonetics and speech technology (speech synthesis); 3) forensic phonetics; 4) sociophonetics; 5) selected issues in the treatment of Pathological speech.

NOTE: Although this course does not assume a sophisticated mathematical background, all participants must be prepared for exposure to concepts in acoustic phonetics and statistics.

Grading: Class assignments & quizzes 30%

Midterm Exam 35%

Final Exam 35%

Required Texts: Custom courseware for Linguistics 480: Applied Phonetics.

Some additional readings will be available on reserve in the Bennett Library.

Custom Courseware package available for purchase at the SFU Bookstore, Burnaby campus, only.

Recommended Texts:

Materials/Supplies:

Prerequisite/Corequisite: 12 credit hours of upper division linguistics course

Notes: It is strongly recommended that you see the Departmental Assistant regarding your degree requirements at least two semesters before you plan to graduate. Unless you meet both faculty and major/minor requirements, your graduation cannot be approved.
