

Introduction to Kinesiology

Kinesiology 142

Section: D100

Term: 2001 Spring

Instructor: Craig Asmundson

Office: K8632

phone 291-4231

Discussion Topics: INTRODUCTION:

The objective of Kinesiology 142 is to introduce a variety of topics found in the realm of Kinesiology. Theoretical concepts and current laboratory techniques will be discussed.

The course consists of two hours of lecture plus a two hour laboratory session per week. Students will find that a great deal of their time in this course will be spent on the laboratory work. Laboratory equipment is limited, thus, students MUST attend the lab session for which they have registered.

The laboratory manual is essential and can be obtained from the SFU Bookstore.

Grading: 9 Pre-lab quizzes - 5%

Experiment Summary Sheets - 10%

Midterm Lecture Exam (Week 7) - 15%

Midterm Lab Exam (Week 7) - 15%

Final Lab Exam (Week 13 and exam period) - 25%

Final Lecture Exam (Exam period) - 30%

Required Texts: We have arranged for a composite book package to be assembled from several books by a common publishing house. Half of the composite book will be from "Fox's Physiological Basis for Exercise and Sport" by M. Foss and S. Keteyian. This composite book p

Prerequisite/Corequisite:

Notes: Failure to attend an examination

Students who miss examinations due to exceptional circumstances (such as serious illness or compassionate reasons) are required to obtain a physician's certificate or other supporting documents in order to obtain consideration in the course. Such documents must be filed with the School Director (via the Kinesiology office) or Registrar within four calendar days of

Introduction to Kinesiology

the date on which the examination was to have been written. Exceptional circumstances must be approved by the Undergraduate Program Committee in order for a student to receive consideration.

Students must check the exam schedule when making course selections. Students are reminded that final examinations may be scheduled at any time during the examination period and that students should avoid making travel or employment arrangements for this period.

Academic honesty and student conduct

Academic honesty is a condition of continued membership in the University community.

Academic dishonesty, including plagiarism or any other form of cheating is subject to serious academic penalty, i.e. failure on an assignment, failure in a course, suspension or expulsion from the University.

The University codes of student conduct and academic honesty are contained in policies T10.01 and T10.02 which are available in the Course Timetable and on the Web via <http://www.reg.sfu.ca>.

The first lecture will be held on Thursday, January 4. Laboratory sessions will begin in the SECOND week of classes which begins on January 8.

This outline is derived from a course outline repository database that was maintained by SFU Student Services and the University's IT Services Department. The database was retired in 2014 and the data migrated to SFU Archives in 2015.
