## CHANCELLOR'S WELCOME

By now, I am sure you have heard a great deal about how the global pandemic is re-shaping the future that lies ahead of you.

So I will resist the temptation to say what you already know well.

But I do want to say this:

The Class of 2021 is like no other in living memory. Your commitment to your education through the pandemic reminds us that important values endure even when the world is turned on its head. And for that we are all grateful. Thank you.

I also want to say that although your degree has helped you to prepare for a productive and rewarding career, I hope that you have also learned to see the complexity of life through the lives and experiences of others. Because our destinies are linked. And our common

future is made more hopeful and resilient by the empathy and understanding that we show to one another. That simple truth has been brought home to us these last months.

So as you turn the page on this chapter of your life, I ask that you take with you an awareness that in addition to hard work and sacrifice, success in life results from many things including the love, support and encouragement of family, friends and the community,

SFU will always be part of your community – a global family of more than 170,000 alumni joined across cultures, time zones and countries to which you belong.

From all of us, our heartfelt congratulations.

**Tamara Vrooman, O.B.C., LLD (hon.)  
Chancellor**

## PRESIDENT'S WELCOME

It takes an enormous amount of hard work and determination to earn a university degree. Every graduating class deserves recognition for its accomplishment. But the perseverance you showed in completing your degree at one of the most challenging times in recent history adds special meaning and significance to this ceremony. I am so proud of you. I know it wasn't easy. But you did it.

And now as you look ahead, I hope and trust that what you have learned at SFU will have prepared you well for the challenges ahead. Because the future is not found. Rather it is created by people like you who through the acquisition of knowledge gain a better understanding of our world and the wisdom to help

make it better. That enduring spirit lives on in the grace and determination you have shown throughout your time here.

As you mark this important moment with friends, family and all those who helped you along the way, please know that in whatever path you choose, SFU will always be here for you. We are a community of students, faculty, staff and alumni who are a source of strength and support that you can draw on in whatever path you choose.

## HISTORY

The university is named after Simon Fraser, loyalist, fur trader and explorer, who in 1808 completed a great journey in the annals of Canadian history by descending the river which today bears his name. In January 1963, a report recommended the creation of a new university in the Lower Mainland — two months later the establishment of Simon Fraser University received formal assent in the British Columbia Legislature and Dr. Gordon M. Shrum was appointed the first chancellor.

From a variety of sites, the chancellor recommended the top of Burnaby Mountain, with its magnificent views of Burrard Inlet, the Coast Mountains, the Fraser River and Vancouver harbour — the unceded, traditional and occupied lands of the Squamish, Tsleil-Waututh, Musqueam, and Kwikwetlem peoples.

The Vancouver firm of Erickson/Massey won the design competition, but the four runner-up architects each designed at least one building within the overall plan. Construction began in the spring of 1964 and 18 months later on September 9, 1965, SFU opened to 2,500 charter students.

Since then, the university expanded to downtown Vancouver and the Surrey Central district. The Vancouver campus has grown from a modest storefront offering night school classes in the early '80s to the largest post-secondary institution downtown. SFU Vancouver's nine sites offer degree and continuing studies opportunities for students and include several galleries, innovation centres, a student residence and the internationally renowned Morris J. Wosk Centre for

Dialogue. SFU's Vancouver campus celebrated 30 years of learning, research and community engagement in 2019.

Since 2002, SFU's Surrey campus has helped define and shape Surrey's city centre. The campus offers a diverse number of undergraduate, graduate and continuing studies courses and is home to world-class, leading edge research in health, energy and creative technologies. The Surrey campus also supports a thriving entrepreneurial learning environment. The campus currently occupies a stunning facility designed by renowned architect Bing Thom. In the fall of 2019, SFU's Surrey campus opened its newest 160,000 square foot building, the last project designed by the late Thom. The building houses SFU's new School of Sustainable Energy Engineering featuring innovative labs and a 400-seat lecture theatre for both academic and community use.

Simon Fraser University has been characterized by its adventurous spirit, openness, willingness to embrace bold initiatives and its commitment to reconciliation. SFU's unique educational programs, inspired research and vibrant community relations set it apart from other universities — in B.C. and in Canada.

*SFU respectfully acknowledges that its three campuses reside on the traditional, unceded territories of the Sḵwxwú7mesh Úxwumixw (Squamish), səliiwətaʔt (Tsleil-Waututh), xʷməθkʷəjəm (Musqueam), kʷikwəłəm (Kwikwetlem), Kwantlen, qíćəy (Katzie), Qayqayt, Semiahmoo and Tsawwassen peoples.*

**Dr. Kin Lam Wong, PhD**  
**Faculty of Science**

For his PhD thesis, Dr. Kin Lam Wong studied the molecular links between diet and cancer. Using an animal cancer model, he discovered that nutrient sensors and metabolic enzymes work closely with cancer-causing genes to favour abnormal

cell growth. His work provides candidate molecules that could be exploited in targeted cancer therapy. He has received a number of awards including the Dr. Bruce Brandhorst Graduate Prize for best PhD thesis (2020), best publication (2019) and best oral presentation (2018). He is now a postdoctoral fellow at Stanford University studying the cellular and molecular bases of neural circuit formation.

### GRADUATE DEAN'S MEDAL

**Ceremony F**  
**Marco Zenone, MSc**  
**Faculty of Health Sciences**

For his master's thesis, Marco Zenone studied how Canadian cannabidiol retailers represent the efficacy of their products online. He found that over half of cannabidiol product retailers made direct health claims. Yet, there is little

evidence suggesting cannabidiol is useful for most medical conditions and current laws prohibit retailers from making such claims. Marco has led projects funded by the World Health Organization, Health Canada, and Global Affairs Canada. He is pursuing a PhD at the London School of Hygiene and Tropical Medicine where he will study the role of social media platforms in spreading misinformation.

## SYMBOLS OF SIMON FRASER UNIVERSITY

The original Coat of Arms was granted to the university in 1965 by the Lord Lyon, King of Arms, in Edinburgh. The 1965 arms was registered in Canada in 2007.

In 2007, the Canadian Heraldic Authority granted a modification of the Coat of Arms at the request of the university. The arms are based on the arms of Fraser of Lovat, from whom the university's namesake was descended via the Frasers of Culbokie. The blue quarters with white "fraises" i.e., strawberry flowers (a pun on the name Fraser) are the basic Fraser arms, while the white quarters with red crowns are those of Lovat. There are three books at the top of the shield, representing education. The heraldic description of the arms is: "Quarterly; first and fourth Azure three fraises Argent; second and third Argent three antique crowns Gules, all within a bordure quarterly Argent and Gules, on a chief Gules three open books proper, bound and edged Or."

The university's motto "Nous sommes prêts", meaning "We are ready", is a variation of the traditional motto of the Clan Fraser. The mace was commissioned by university architects Arthur Erickson and Geoffrey Massey, and was presented to the university at the opening ceremonies on September 9, 1965. The mace is 61 inches long and weighs 23 pounds. Pieces of cut and polished jade, which were taken from the university's jade boulder in the Academic Quadrangle reflecting pond, were set in silver by its designer, Haida artist Bill Reid. The mace is crowned by a silver stag's head, derived from the coat of arms of Lord Lovat, head of the Clan Fraser. The Fraser tradition was to fasten sprigs of yew in their bonnets before entering battle, and the mace was carved from two hundred-year-old yew, gathered on Burnaby Mountain by a resident in the 1940s.

Lord Lovat presented the university with a claymore, or great sword, on September 9, 1965. The claymore was first used by a Fraser at the Battle of Culloden Moor in 1746. It was also used by a Fraser at the Battle of the Plains of Abraham in 1759. The claymore is approximately 36 inches long and weighs two pounds.

The university's flag is based on the coat of arms, and was first flown at the Convocation ceremonies in June 1981.

## REGALIA

The regalia worn today by our graduates has a colourful history.

Regalia originated in the monasteries of the Middle Ages. At that time, university faculty were men of religion who wore the habit of their Order when teaching. Over time, their garments came to identify their university. In Europe, laymen did not commonly teach in universities until the 19th century. Only by 1858, for example, did British law no longer require university dons to be in holy orders. Nevertheless, professors continued to wear clerical garb, with modifications in cut and design.

Regalia colours often matched those of the university patron, or of the city in which the university was located; Simon Fraser regalia combines the red and royal blue of the Clan Fraser.

The degree hood was originally part of the monk's habit — a carryall for food or other small items. Eventually, the hood became separate from the gown, variegated in colour, and emblematic of scholars and degrees from particular universities. Hoods in Canada and Europe are unique in design and colour to each degree and each university.

The history of the mortarboard worn by our Bachelors and Masters begins with high church dignitaries in the 16th century. These officials wore hats consisting of little more than a cap with a raised, squared crown. By the 18th century, the crown had evolved into a cloth-covered board, and the wearers into the deans and rectors of universities. The 19th century saw the top knob replaced by a tassel and the cap become required student attire. Reminded of the square board masons used to hold mortar, students dubbed the headgear a "mortarboard" — college slang of the day.

Doctoral hats are patterned after the Florentine hats in the time of the Medici. Students purchased hats of the appropriate university colours when continuing with advanced studies after completing the bachelor degree.

## THE PRESIDENTS' AND CHANCELLORS' REGALIA

In early 2020, following on the Calls to Action presented in SFU's Aboriginal Reconciliation Council report, SFU undertook to renew the President and Chancellor's regalia with a design that would respectfully honour the first peoples and the traditional lands on which the SFU Burnaby Campus resides.

The motifs that appear on the regalia were chosen and designed by Hereditary Chief Janice George (Chepximiya Siyam') and Willard 'Buddy' Joseph (Skwetsimeltxw) of the Squamish Nation. Local designer, Beverli Barnes designed the gowns.

These motifs can also be seen on Newxniw'chet (*The Teachings*) Salish blankets that hang in SFU's Saywell Hall Atrium. They represent the first peoples that lived on Burnaby Mountain and the food they harvested there. The motifs also represent leadership and nobility, adaptability, the past and the present. Arranged on the gowns in contemporary colours and fabric, the patterns evoke the style of a traditional Salish blanket.

*"The Salish blanket, worn as a ceremonial robe, is an object of extraordinary complexity. Said to exist in the supernatural realm, these robes are made manifest in the natural world through Ancestral guidance. Wearing a woven blanket during ritual is transformative, moving the individual from the mundane to a sacred space. They are protective garments that at times of great changes in a person's life... offer emotional strength. The object, the maker, the wearer, and the community itself are bound and transformed through the creation and use of the Salish blanket".*

~ Salish Blankets - Robes of Protection and Transformation, Symbols of Wealth – p. XIII
