

SFU Press Releases Collection

These archival copies have been generated from web press releases maintained and originally written by SFU Communications and Marketing. Where possible, an effort has been made to preserve the public comments left on the website as well as any included photos or other images. All textual content should be faithful to the original press releases; contact numbers have been removed but they have not otherwise been altered in any way. However, this collection of documents spans multiple generations of web authoring software and not all formatting will be exact.

Media Advisory: SFU to release study on adopting clean energy

Contact:

Deborah Harford, [Phone removed]; adapt@sfu.ca

December 7, 2010

WHEN: Wednesday Dec. 8, at 10:30 a.m.

WHERE: Room 1500, SFU Vancouver at 515 West Hastings Street.

SFU'S Adaptation to Climate Change Team (ACT) releases its latest report: Climate Change Adaptation and the Low Carbon Economy (on Wednesday Dec. 8, 10:30 a.m.) on the environmental, social and economic challenges of adopting clean energy

Author Bruce Sampson, Chair of the International Centre for Sustainable Cities and former VP Sustainability, BC Hydro, will speak to the major recommendations in the report and will be available to answer questions.

This is the third in an SFU series of research and policy initiatives on adapting to climate change from a regional and national perspective. ACT's first two reports focused on Climate Change Adaptation and Biodiversity (2008), and Climate Change Adaptation and Extreme Weather (2009). (See <http://www.sfu.ca/act/Publications.html> for these.)
